*Dear friends and colleagues,  
We yesterday lost Vasso Vassiliou.*

*“Anthropos” and the Hellenic systemic community are all devastated.  
Her memorial service today was a warm and moving experience.  
A multitude of people gathered together to bid farewell to this grand lady  
who had an extraordinary skill of making each and every person she  
came in contact with, feel very special and unique.*

*Along with our sorrow, we are very grateful to have had her in our lives –  
our teacher, our mentor, our collaborator, our friend...  
Her voice goes with us.*

*On behalf of the Athenian Institute of Anthropos Colleagues*
